

## REMARKS

Claims 1-20 are pending in the application. Claims 1-20 are allowed.

The Examiner has indicated that the present application is in condition for allowance except for the following formal matter –

The illustrations of page 20 do not come within the exceptions of 37 CFR 1.58(a). Please furnish separate drawings per 37 CFR 1.56(a), delete the illustrations from the specification and amend the text as necessary. In order to avoid abandonment of the application, correction is required.

No deadline for replying to the Office communication was provided.

Figures 1 and 2 have been added, previously found on p. 20 of the Specification. Page 20 has been amended to delete the two illustrations found thereon, now included as separate Figures 1 and 2. Page 4 of the Specification has been amended to include a brief description of the two illustrations previously found on page 20. Page 19 has been amended so that reference to the photographs previously found on page 20 is now to the Figures. As the Figures 1 and 2 were included in the Specification as originally filed, no new matter is introduced by these amendments. Instead, the above amendments and Figures are simply made to place the application in proper form.

Accordingly, the application is now believed to be in order, and issuance of the patent is respectfully requested.

Respectfully submitted,

Dated: 23 November 2004
